

## **AMENDMENTS TO THE SPECIFICATION**

**Please amend paragraph [0019] on page 7, as follows:**

As shown in Figure 5, the slide portion 35 has a generally rectangular support plate 36 and bearing ~~a slide~~-plate 41 disposed above the slide portion 35. The support plate 36 comprises fixed brackets 36A and 36B at its front and rear end, respectively. The support plate 36 is attached to the floor panel 11. A pair of a movable and fixed rail ~~rails~~-37 and 38 is disposed between the support plate 36 and a bearing plate 41; the movable and fixed rail 37 and 38 can perform a relative slide operation. The pair of the movable and fixed rail ~~rails~~-37 and 38 allows the bearing plate 41 and the passenger seat 20 to be supported so as to be able to slide forward and backward in the car body.
